

Volunteer Role Outside Plants/Flowers Helper

We are looking for volunteers to tend to the outside garden pots and look after the plants throughout the summer months, as well as help keep the entrance and surrounds of the community centre tidy.

Volunteers can share this role, which includes:

- Weeding and regularly watering the outside plant pots during warm weather.
- Agreeing with the RA what new plants/bulbs will be planted and re-potting when required.
- Sweeping outside areas and removing litter from the carpark
